

"I am deeply grateful for my master teacher Karen Anderson! Karen has an amazing capacity to bring out my natural singing abilities while creating a comfortable and safe learning atmosphere. She can quickly hear and easily correct the smallest things that free up my voice and which helps me identify areas of improvement. Karen draws the best out of me in a way that I have not experienced with any other teacher. She fills me with confidence, stretches me, and expects the best out of me while ensuring that my learning experience is fun and enjoyable, reinforcing my desire to become a better singer and performer. In a short period of time I have come from "zero" to singing arias—something I never dreamed I could do. In summary, Karen is my voice whisperer and I feel deeply grateful I was led to her!"
